EMB R8 joins thousands of others on International Coastal Cleanup Day

The Environmental Management Bureau (EMB) Region 8, together with the Department of Environment and Natural Resources (DENR) Eastern Visayas and other local organizations, participated in the international coastal cleanup (ICC) led by the Ocean Conservancy on September 17, 2022, along Cancabato Bay in Tacloban City and MacArthur Park in Palo, Leyte.

Other volunteers from around the globe have also carried out their own coastal cleanups on the same day in support of the Ocean Conservancy's campaign for trash-free seas.

The Ocean Conservancy's ICC encourages people to clean garbage from beaches all over the world while also increasing public awareness of environmental issues so that smart solutions to address marine litter can be developed by governments, industries, and other institutions.
