EMB R8 engages students in eco-friendly activities on World Environmental Health Day

The Environmental Management Bureau (EMB) Region 8, in collaboration with Bureau Comprehensive National High School, organized a two-day event featuring varied environmental activities for students on September 27-28, 2022, to commemorate World Environmental Health Day.

Dubbed as “D’EASE: Dynamic Eco-friendly Activities Sustained through Education,” the event was comprised of lectures and discussions on environmental health, effective solid waste management in schools, youth involvement in climate action, the

national program on sustainable and eco-friendly schools, restoration of environmental values, and mental health awareness.

As part of the celebration, the said event also encouraged student and teacher participation in the poster-making competition, the eco-friendly "Fusion in Fashion" contest, fruit and vegetable planting, and the cleanup activity at the BCNHS grounds.

During the cleanup, special guest Pinas the Basura Buster led the team in decluttering trash from classrooms and the school’s oval. PBB is the new face of the solid waste management program launched by the Department of Environment and Natural Resources (DENR).

Aside from BCNHS, the event was also a collaborative effort among UP Halcyon, UP Envisage, Kiwanis Club of Sulhog Tacloban, Jollibee Foods Corporation, and ERT-CDE Holdings, Inc.

This year’s celebration was anchored on the national theme, “Protektahan ang ating Kapwaligiran, dahil ang Kalikasan ay Kaakibat ng Kalusugan.”
