### EMB R8 holds year-end assessment of 2022 targets

As part of its commitment to provide quality service, the Environmental Management Bureau (EMB) Region 8 held its year-end management conference on December 12-14 to assess the office's performance in meeting its work targets for 2022.

Regional Director Martin Jose V. Despi convened all division chiefs, section and unit heads, and selected regular personnel for the year-end assessment, where physical and financial accomplishments were presented, and other pertinent issues and concerns were addressed.

The different units and sections, including the provincial environmental management units (PEMUs), also shared their milestones and innovations for the year.

Capping the three-day activity was a planning workshop in preparation for its 2023 programs, projects, and activities.
